## EDUCATION

### B.S., Computer Science

University of Maryland, College Park

08/2021 - Present

### Academy for Technology and Computer Science

Bergen County Academies

09/2017 - 06/2021

GPA: 4.0

#### Courses

- Web Development
- AP Computer Science
- Functional Programming
- Linear Algebra
- C & Data Structures
- Math Foundations of CS
- Computational Theory
- Multivariable Calculus

## WORK EXPERIENCE

### Software Engineer Intern

Bloomberg, L.P.

09/2020 - 08/2021

New York, NY

#### Achievements/Tasks

- Developed a RESTful service to manage the BLAW permissions backend using Java and Spring Framework.
- Created a responsive and dynamic interface with Vue.js, GraphQL, and Ruby on Rails which communicated with the Java service via HTTP requests.
- Presented dashboard in front of managers and senior engineers to receive feedback for implementing new features and improving user experience.

### Computer Science Teacher

Hasbrouck Heights Public Library

09/2019 - 03/2020

Hasbrouck Heights, NJ

#### Achievements/Tasks

- Planned and scheduled a free weekly programming class for middle school students in coordination with the library director.
- Designed an introductory curriculum teaching the fundamentals of computer science and programming in Python.
- Created practice problems assessing knowledge of user input, conditional statements, and loops.

## SKILLS

Python

Flask

Java

JavaScript

Node.js

Vue.js

PostgreSQL

C

C++

Linux

Docker

Ruby on Rails

GraphQL

Rest APIs

Object Oriented Programming

Aspect Oriented Programming

Problem Solving

Collaboration

Communication

Adaptability

## PERSONAL PROJECTS

UnionBlue (09/2020 - 06/2021)

- Developed a PPE inventory dashboard for a friend's client from the Teamsters labor union.
- Designed an interface for viewing available products and contacting the distributor through a secure email form.
- Implemented administrator commands for creating, updating, and deleting stock listings in the database.

Plannet (02/2020)

- Designed a web application enabling users to easily and effectively plan hangouts with their friends.
- Utilized Google OAuth API for user profile creation and an open source map API (Mapbox) for selecting and displaying locations.
- Winner of "Best Vision" award at hackBCA V.
